

The Napa River Difference

As our client, you will never deal with unfocused, generic “team members.” Napa River assigns each client a specific claims handler that functions as the main point of contact on all matters. Your contact will work with you directly to ensure a clear understanding of your claims goals and will outline a specific course of action to help you achieve them.

Because our team focuses on public entity risk, we are skilled at effectively handling all associated losses. We understand claims become more expensive the longer they remain open, and a reduction in the number of open claims directly affects the level of a municipality’s exposure. To that end, we aim to close claims as efficiently as possible while securing the most favorable outcome. Additionally, our nationwide network of trusted, proven vendors understands our mission and is ready to aid us in achieving this objective.

Simply put, **our strength is in our people.**
